WILD FLUCTUATIONS IN SOUTHERN PACIFIC STOCK.

TERMINATE WITH BROKERS' FEARS OF A CORNER.

Wall Street Generally More Cheerful, Since the Financial Situation Seems Better.

New York, March 19.—Uncommon interest attached to to-day's stock market movements, by reason of the previous day's advance in Southern Pacific. There were fears of a "corner" or some other awkward development and trading in the first hour was irregular and very cautious. Southern Pacific shares fluctuated wildly at the outset selling up to 65%, the highest point recorded in some months, and almost as suddenly sold down to 66. Later, when it became suparent that there was no occasion for alarm, the list steadled all around and showed general improvement up to the last hour, when realizing forced prices in the more active issues down to a low level. Covering by the short interest was on an extensive scale, epecially in Southern Pacific and other pool issues. Louisville and Nashville showed considerable strength in the early dealings on buying that was attributed to the Western contingent. There was also good buying of Atchison during the early seesion. With the exception of St. Paul and Union Pacific, which reflected pressure, the international stocks opened generally above the late London quotations.

increased demand for remittances from importers. The rise amounted to 10 points as compared with pesterday's closing rate, most of the business being at 4.8725 for demand. The supply of bills was small and the general outlook for the exchange market was stronger, this condition being modified, however, by the possibility of occasional weakness caused by the sudden rise in the money rate. Time money was offered in abundance at 5½ per cent for all dates, but the demand was light. The prevailing rate for call loans was 5½ per cent, though in the late afternoon there was a flurry which carried the price to 7 per cent, closing at 6 per cent.

The bond market responded sharply in spots to the improved speculative temper. Total sales, par value, \$1.850,000. United States bonds were all unchanged on the last call.

TRACTIONS IN DEMAND ON LOCAL INVESTMENT.

TRANSIT THE FEATURE OF DAY'S TRADING.

General List Rules Dull With Values of Banking Issues Steady.

Good investment interest in tractions was the only feature of the market for local securities yesterday. The statement of President Murray Carleton of the St. Louis Transit Company, as reported by The Republic, that a portion of the indebtedness of that company could be refunded in a way which would assure the saving of 1 per cent interest on an obligation of \$20,-60000 had the effect of steadying the mar-ker. Transit opened easy at \$55.50, but rapidly advanced to \$28.575, at which price the bulk of sales was recorded at the morning session.

United Railways, preferred, opened steady at \$1 and advanced to \$51.12\(\frac{1}{2}\).

Mercantile Trust at \$100.50 was the only active banking issue. Granite-Ri-Metallic eased off to \$5 cents and City 3.65s were taken at \$100.12\(\frac{1}{2}\).

At the afternoon session Transit had the call with sales on the upturn at \$25.87\(\frac{1}{2}\) and \$27. A small lot of Commonwealth Trust sold at \$300 and 5 shares of National Candy, common, were taken at \$24.

WHEAT IS EASY AND LOWER AFTER DULL BUSINESS DAY.

TEMPORARY GAIN ON NEWS OF COLD WAVE.

Corn Excites Little Interest and Volume of Trade Is Small-Provisions Strong.

Chicago. March 19.—Trading in all the plts on the Board of Trade was rather gulet to-day, and wheat closed easy with day off 4c. May corn was a shade higher, but oats were down a fraction. Provisions closed strong, with the May products from 106124c to 16c higher. WHEAT.

Wheat ruled dull and the volume of business was small and largery local. Opening prices were steady on firm cables, May being unchanged to be lower, at 74897445. Early in the day there was considerable buying on prospects of a cold wave, the weather map showing zero weather in the extreme Northwest, with possibilities of its extending over a large part of winter-wheat belt. May advance to 745c on the strength of the promised colder weather, but later on reports of larger Argentine supments than had been previously estimated the market cased off again, May selling down to 745c. During the last hour there were little changes in prices, and May closed 4c lower at 745c. Cearances were 45,000 bu. against 237,000 bu. a year ago. Maneapolis and Duluth reported receipts of 556 cars, made total receipts for the three points 371 cars, against 325 last week and 366 last year.

CORN.

There was little of interest in the trading in corn and the volume of business was

There was little of interest in the trading in corn and the volume of business was small. Higher cables imparted strength at the start, and shorts were quite active buyers for a time, but the demand soon slackened and the market eased off and the close was about unchanged. May being a shade higher at 44244 sc, after selling between 435444c, and 445c. Local receipts were 156 cars, with none of contract grade. OATS. OATS.

Oats ruled dull along with other grains and prices showed little change. Shorts were fair buyers early in the day with commission houses the best sellers. The cash market was dull with light offerings and receipts were small at 125 cars. May closed a shade lower at 34/43/4c, after ranging between 34/43/3c and 34/4c.

PROVISIONS.

Provisions opened firm on a strong hog market, but later eased off with the weaker tone in the grain pits. In the latter half of the seasion a fair scattered demand developed and there was also good buying by a prominient gealper, which resulted in a reliy, the close being strong with May pork up 15c at \$18. May lard was 12½ on nigher at \$10, and ribs were logice better at \$3.00.

Native Run Small—Beef Cattle Steady
—Sheep Trade Dull.

NATIVE CATTLE—Beef Steers—Native cattle receipts were about of the same proportions that were offered last Thursday, while the proportion of beef steers was much lighter and of an inferior class. Outside of a single load at 35, there was nothing available above \$4.75, and the few loads of cattle on sale were sufficient for requirements. Good steady prices prevailed.

President Ely & Walker Dry Goods Co.

is shown by the fact that in comparison with the light supply of 281 cars received during the four days of last week a deficit of around 140 cars has already been recorded during this week. The day's receipts amounted to 30 cars, embracing 666 head, against 26 cars and 676 head last Thursday and 42 cars, containing 1,090 head, two weeks aro. The bulk of the engely comprised steers that were good enough to seei above 44, with a load of 1,122-lb, steers topping at 44-65. A few loads of medium Seers were included, while very few cows and bulis were on offer and nothing in the calf line. Arrivals were in on the early market, and as the demand was fully equal, a ready clearance was effected at good steady prices.

The weekly comparison shows good kinds of steers and cows, as well as good calves to be on a good steady to firm basis contrasted with last week, while common, trashy and medium steers and bulls are around a dime lower. The common classes of calves are as hard selling as they have been any time recently.

Hepresentative sales:

"EEXAS AND INDIAN STEERS.
